About Istiqama

The International Istiqama Muslim Charitable Association was established in 1416 AH corresponding to 1995 AD in the Sultanate of Oman, and the Association provides its voluntary services in the East African countries.

The Association has maintained its values as a global Islamic charitable organization that does not belong to a party, and is colored not except with the color of Islam and honest philanthropic work, and has maintained its mission to provide goodness without (following up its gifts) with reminder or with mischief, and to invite people (to the path of Allah) with what is the best, and moved away in its approach from anything that divides and brings disagreement and disharmony, so it rallied around the Association, best of the people and the people of virtue; and this has made the Association in reality achieved a great success.

Thanks to their continuous support and sponsorship of their association, and the generosity of the philanthropists. This has made it easy for many educational and advocacy (da'wah) institutions affiliated with the association to perform their mission to the best of their capacity in a number of countries, praise be to Allah the Lord of the worlds! This, especially among the Omani community living in African countries.

Istiqama Philosophy

Dr. Saleh bin Sulaiman Al Zahimi
The Executive Director

The philosophy of the International Istiqama Muslim Charitable Association is concentrated on education, training, empowerment and capacity building. With this philosophy, it seeks to achieve sustainability for the individual and society and to uplift them from the level of need to the stage of production, and contribute to achieving sustainable development goals such as poverty eradication, education for individual, providing a healthy and safe environment, equality and justice in providing a decent living.

In the year 1415 AH corresponding to 1995 AD, the association embarked on its civilized and pioneering role through the establishment of Quran schools in Zanzibar, then expanded its activity to include all governorates of Tanzania. With the beginning of its third decade, it was able, by the grace of Allah, to spread its civilized role in eight African countries, and expand its scope of work from *Katateeb* (Quran elementary school) and Holy Quran study circles to building and developing educational cities with an area of up to 10 square kilometers.

In addition to its pioneering role in education, the association has provided and continues to provide many humanitarian services such as digging wells, sponsoring orphans and the poor, providing health care, and empowering needy families in entrepreneurship and establishing commercial projects and others.

This achievement could not be achieved without the giving of those who are fortunate with the Lord's Medal; This achievement could not be achieved without the giving of those who received the Lord's Medal; "those who hasten in good deeds and they have precedents", (Quran: al-Mu'minūn,61). So, congratulations to you for this giving, and thank you for your giving and great generosity. We say that your association expects more giving and generosity from you, to continue its journey in imprinting your impact in the fields of humanitarian work.

Strategic Objectives

- 1 Instilling Islamic values and good citizenship.
- 2 Promoting knowledge development through education and providing an integrated, motivating and innovative learning environment.
- 3 Promoting social development and the values of sacrifice, giving and solidarity in the East Africa.
- 4 Contribute to sustainable development by transforming poor individuals and communities from need to production, dependence to independence, and from seeking to sufficiency.
- 5 Creativity and innovation in volunteer work.
- 6 Governance of volunteer work values.

Vision

Transforming the poor communities from pastoral to developmental.

Mission

Providing an integrated educational, service and knowledge environment, and building a society based on meeting its knowledge needs in addition to its livelihood, changing the culture of societies and transforming it from need to production, from dependence to independence, and from seeking to sufficiency.

Values

We offer goodness without harm or mischief.

We are colored not except with the color of Islam and honest philanthropic work.

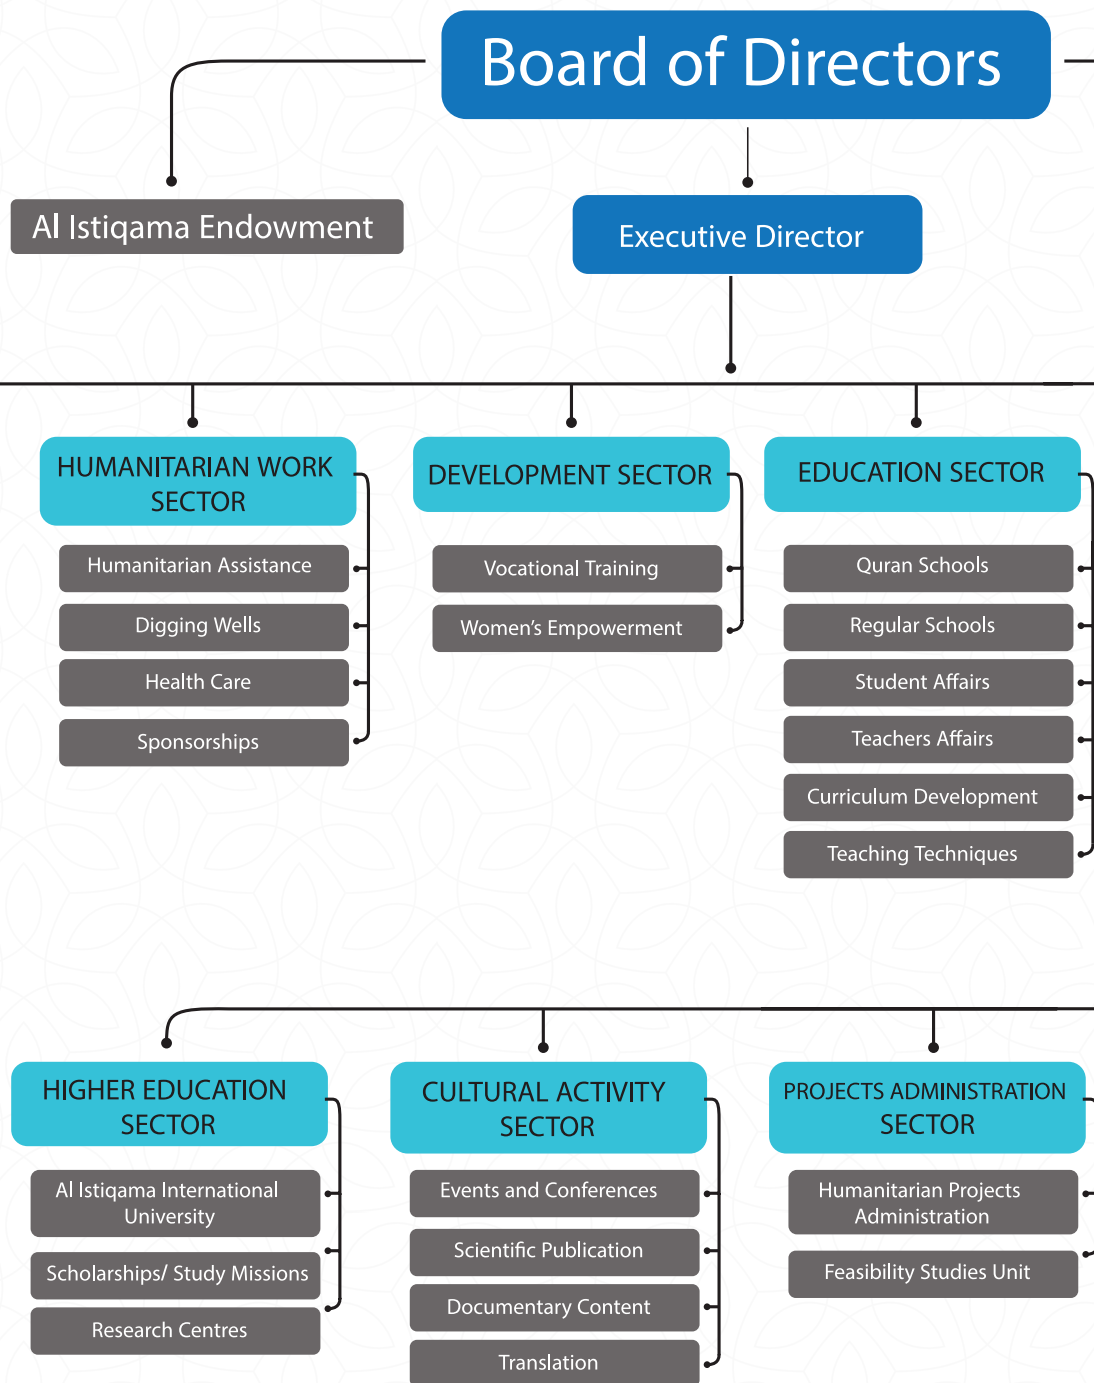

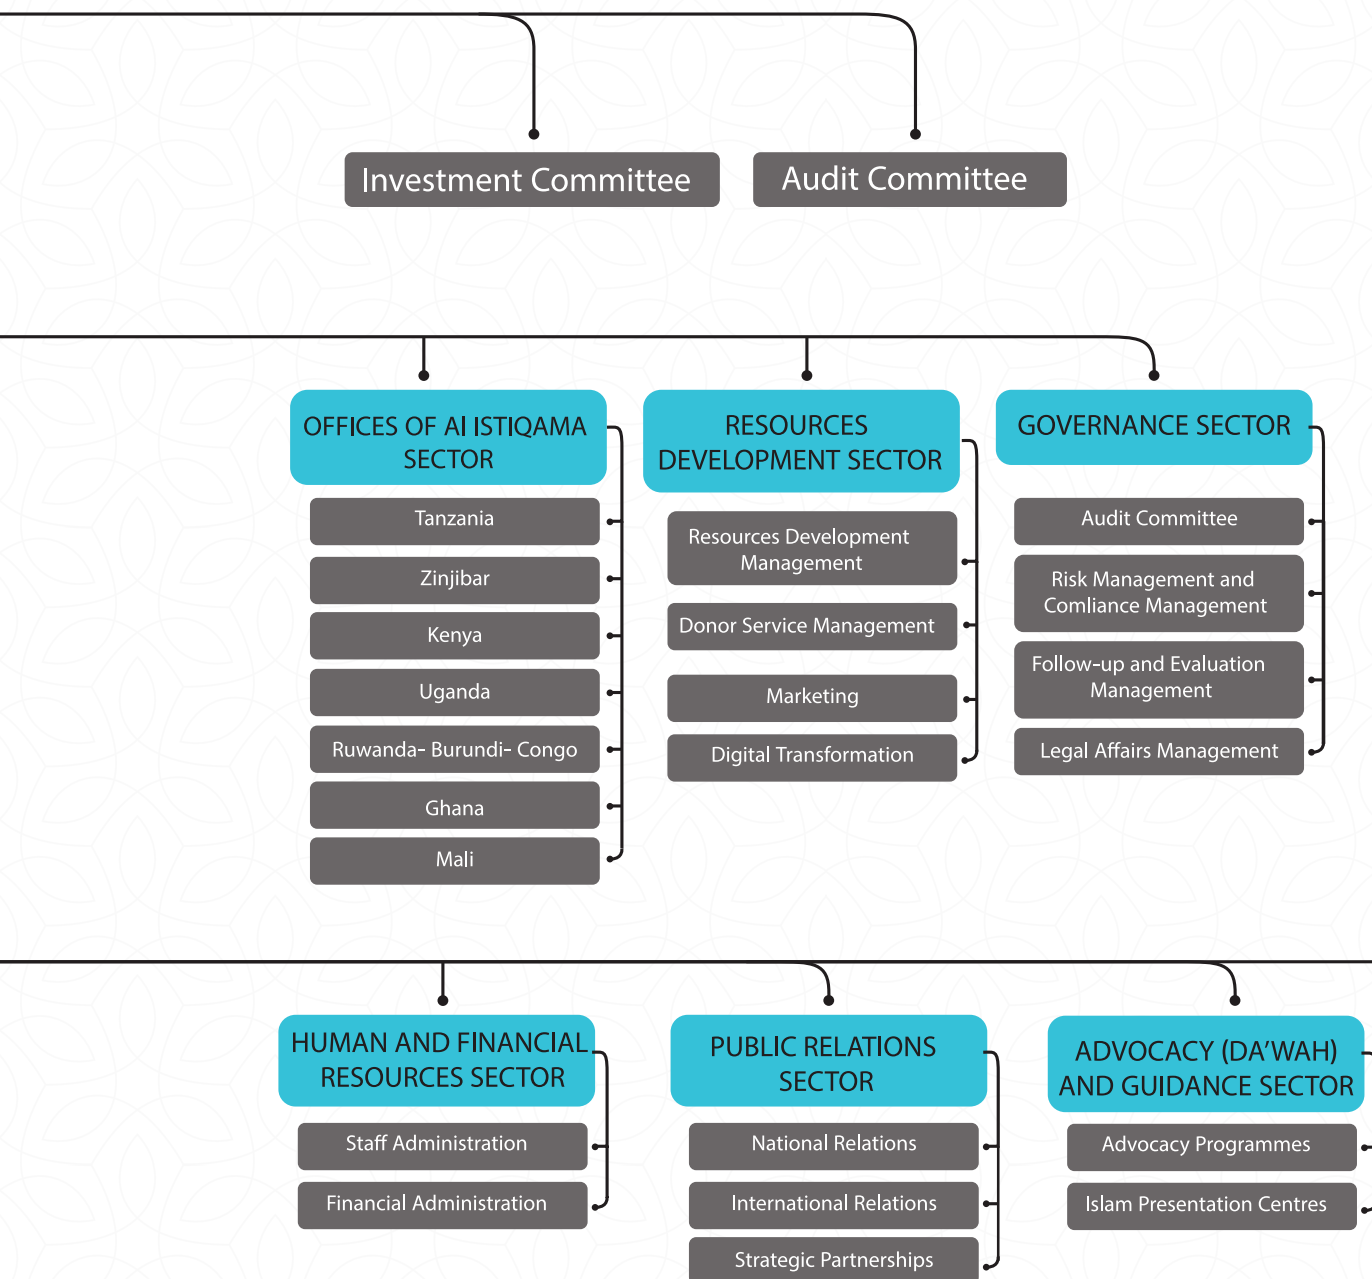

In our approach, we moved away from anything that divides and brings disagreement and disharmony.

Inviting people (to the path of Allah) with what is the best.

The screenshot displays the homepage of the Istiqama website. At the top, there is a navigation bar with the organization's name in Arabic and English, along with social media icons. Below this is a large banner featuring a smiling child and the text "مشاريع الأباريق" (Istiqama Projects). A grid of icons represents different project categories: Education, Health, Agriculture, Housing, and Social Welfare. The main content area includes several featured projects with images and brief descriptions, such as "المشاجد" (Mosques) and "طوب للغد" (Good for Tomorrow). Below these, there are sections for "الأنشطة المالية" (Financial Activities) and "آخر الأخبار" (Latest News), each containing articles with images and headlines. At the bottom, there is a world map showing global reach, a list of partner organizations, and a footer with contact information and app download links.
